

## **FAQ for Cash-in Installment Program**

### **Can I request to make early repayment of the total outstanding amount?**

You can choose to make early repayment. However, you need to pay the early settlement handling fee of HK\$200 and all monthly administration fees payable over the remainder of the installment period but not yet charged to the Account and any interest (if applicable). Please check with the Bank about the total repayment amount and consider the handling fee involved before making a decision of repaying early or not.
